Report on Audited Financial Statements
For the Years Ended June 30, 2006 and 2005

Report of Independent Auditors

Board of Trustees
Occidental College

In our opinion, the accompanying balance sheets and the related statements of activities and of cash flows present fairly, in all material respects, the financial position of Occidental College (the "College") at June 30, 2006 and 2005, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the College's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 12 of the financial statements, the College applied the provisions of FASB Interpretation No. 47 and changed its method of reporting conditional asset retirement obligations.

1. Operations and Summary of Significant Accounting Policies

Nature of Operations

Occidental College (the "College") is an independent, coeducational college of liberal arts and sciences, founded in 1887. Occidental College seeks to provide an education of high quality in the best tradition of the liberal arts, emphasizing thorough competence in a chosen field of study together with a broad understanding of our historical and cultural heritage and the relationships among fields of knowledge. The College is accredited by the Western Association of Schools and Colleges.

Basis of Accounting and Reporting

The accompanying financial statements of the College, a not-for-profit educational institution, have been prepared on the accrual basis of accounting in accordance with standards generally accepted in the United States of America and with the American Institute of Certified Public Accountants' Audit and Accounting Guide, *Not-for-Profit Organizations*.

Revenues, gains, expenses and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the College and changes therein are classified and reported as follows:

Unrestricted Net Assets

Unrestricted net assets are comprised of assets which are for operating purposes or assets which are not subject to donor-imposed restrictions and are general in nature. Unrestricted net assets have been segregated into the following categories:

Designated – Educational and general – includes funds that are internally designated for operational or special use.

Designated – Functioning as endowment – includes certain gifts not otherwise restricted and Board designations of assets to function as endowment, realized and unrealized gains, and reinvested income on endowment funds unless restricted by the terms of the donor agreement.

Designated – Student loan funds – includes lending activity to students utilizing College resources designated for that purpose as well as funds intended for a general College loan program.

Designated – Life income and annuity contracts – the College has legal title to life income and annuity contracts and agreements, subject to life interests of the beneficiaries. No significant financial benefit is or can be realized until the contractual obligations are released.

Designated – Renewal and replacement – includes amounts internally designated for renewal and replacement of property and equipment.

Invested in property and equipment – includes property and equipment stated at cost or fair market value at the date of gift, less accumulated depreciation. Depreciation is computed on a straight-line basis over the estimated useful lives for land improvements (20 years), buildings and improvements (40 years), and equipment and library books (5-10 years). The College follows the policy of generally recording contributions of long-lived assets directly to unrestricted net assets. However, if the donor stipulates how long the assets must be used, the contributions are recorded as temporarily restricted support. Upon disposition of assets, the cost and related accumulated depreciation is removed with the resulting gain or loss recognized in unrestricted net assets.

1. Operations and Summary of Significant Accounting Policies (Continued)

Temporarily Restricted Net Assets

Temporarily restricted net assets are those assets whose use by the College is subject to donor-imposed stipulations that can be fulfilled by actions of the College pursuant to those stipulations or that expire by the passage of time. Such assets include certain charitable remainder unitrusts, pooled income funds, gift annuities, and certain pledges receivable for which the ultimate purpose of the proceeds is not permanently restricted.

Permanently Restricted Net Assets

Permanently restricted net assets are those assets subject to donor-imposed stipulations that they be maintained in perpetuity by the College. Generally, the donors of these assets permit the College to use all or part of the investment return on these assets for unrestricted purposes. Such assets primarily include the College's permanent endowment, certain charitable remainder unitrusts, and loan funds established by outside donors.

Revenues and Expenses

Student tuition and fees are recorded as revenues in the period during which the related academic services are rendered. Student tuition and fees received in advance of services to be rendered are recorded as deferred revenues.

Contributions are reported as increases in the appropriate category of net assets, except contributions that the donor restricts where the restrictions are met within the same fiscal year, as these contributions are included in unrestricted net assets. Contributions other than cash are recorded at their fair market value or net realizable value at the date of gift.

Revenues from grants and contracts are exchange transactions so are recognized as allowable expenditures under such agreements as incurred.

Revenues from sources other than contributions are reported as increases in unrestricted net assets. Gains and losses on investments are reported as increases or decreases to the appropriate net asset category.

Expenses are generally reported as decreases in unrestricted net assets. Expirations of temporary restrictions on net assets are reported as reclassifications from temporarily restricted net assets to unrestricted net assets. Temporary restrictions on gifts to acquire long-lived assets are met in the period in which the assets are acquired or placed into service.

Contributions, including unconditional promises to give, are recognized as revenue in the period received. Conditional promises to give are not contributions until the conditions on which they depend are substantially met. Unconditional promises to give are donor commitments where there is sufficient evidence they exist, verifiable documentation, no ambiguous conditions, and legally enforceable. If these contributions are to be received after a year and/or over a number of years, they are discounted at a rate equivalent with the long-term applicable federal rate ("AFR"). The discount is amortized and recorded as additional contribution revenue in accordance with the donor-imposed restrictions, if any. In addition, an allowance for uncollectible promises to give, based on past collection experience, is recorded.

The financial statements present expenses by functional classification in accordance with the overall educational mission of the College.

1. Operations and Summary of Significant Accounting Policies (Continued)

Revenues and Expenses (Continued)

Depreciation expense is allocated directly based upon the nature of the underlying assets. Interest expense on external debt is allocated to the functional categories which have benefited from the proceeds. Plant operations and maintenance represents space-related costs that are allocated to the functional categories directly and/or based on the square footage occupancy.

Cash and Cash Equivalents

Cash and cash equivalents include short-term, highly liquid investments with a maturity of three months or less at the time of purchase. Cash and cash equivalents representing assets held as endowment and similar funds and assets held for annuity and life income payments are included in long-term investments. Cash and cash equivalents are reported at cost which approximates fair value.

The College has cash balances that periodically exceed the Federal Deposit Insurance Corporation limit of \$100,000 per depository bank.

Assets Whose Use Is Limited

Certain proceeds of the serial bonds (see Note 7) held by trustees are limited as to use in accordance with the requirements of the trust agreement.

Total Return Policy

Unrestricted revenue is supplemented by the transfer of additional amounts from unrestricted net assets designated as endowment income to result in a total return from such investments equivalent to between 5% and 6% of the average market value (as defined) of the investments over a three-year period. Additional amounts may be transferred from unrestricted net assets designated – functioning as endowment to undesignated educational and general net assets at the discretion of the Board of Trustees.

Student Loans

The College administers a federal student loan program, the Perkins Student Loan program. Loans made under this program have a ten-year repayment period, with interest rates between 3% and 6%. In the event of termination of the program, the loan repayments would be distributed to the federal government and the College on the basis of their relative contributions to the program. It is anticipated that any uncollectible loan balances would be treated in a similar

3. Trust Deeds Receivable

The College held notes receivable from faculty members and administrators totaling approximately \$2,749,000 and \$2,961,000 at June 30, 2006 and 2005, respectively. These notes are included in the trust deeds receivable balance on the Balance Sheet and are recorded at cost. Such loans were issued under the College's housing assistance program, and are collateralized by first or second deeds of trust. Interest rates range from 5.0% to 6.61% with maturities up to 20 years. The College has \$755,278 of non-interest-bearing loans included in this amount at June 30, 2006 and 2005.

4. Contributions Receivable

Unconditional promises to give are included in the financial statements as contributions receivable and gift revenue in the appropriate net asset category. Contributions are recorded after discounting at the long-term AFR to the present value of future cash flows. The AFR ranged from 4.48% and 2.48% for the years ended June 30, 2006 and 2005. Amortization of the discount is included in gift revenue.
